

## **UNRIVALLED ACCESS CAPABILITIES:**

- QuikDeck® is a suspended, temporary access platform.
- The platform provides unrivalled access capabilities in a fraction of the time traditional scaffolding takes.
- We have an enviable track record for utilising QuikDeck to enable a range of operations such as hook-up, caisson installation and removal, decommissioning, shutdown, under deck access and complex lifting.
- QuikDeck is highly flexible, and can be configured to almost any shape or size for a wide range of construction, decommissioning and maintenance projects.
- It provides safe and easy access to many hard-to-reach areas offshore, such as the underside of a platform. QuikDeck can be assembled and lowered into position or built in the air.

## **QUIKDECK BENEFITS:**

- Twice the load bearing capacity of traditional systems yet only half the weight
- Highly versatile, modular design can be formed around obstructions and penetrations
- Rapid, simple installation/removal due to modular design
- 'Build as you go' due to modular design
- Provides open, unobstructed deck area
- Stable, safe and flat work area
- Suitable for all work types and all personnel
- Range of loading capacity.

**AQUATERRA, A COMPETENT, COMMITTED AND EXPERIENCED PARTNER PROVIDING AN ALTERNATIVE TO TRADITIONAL SCAFFOLDING, THAT CAN BE CONSTRUCTED AND DISMANTLED IN LESS THAN HALF THE TIME, DURING A RANGE OF OPERATIONS, DELIVERING SIGNIFICANT TIME AND COST SAVINGS TO CLIENTS.**

### **WHY CHOOSE AQUATERRA:**

- Exceed Expectations - enabling our clients to deliver success
- Accountable - we reduce risk for our clients
- Proactive - we work with our clients to meet their long terms needs
- Customer Driven - we understand the challenges our customers face
- Proven Track Record - we develop and deliver high quality specialist products and solutions
- Motivated - we help the industry achieve optimal operational efficiency in a safe and cost effective manner.
